

AMAN YADAV

SOFTWARE DEVELOPER

amany4114@gmail.com | +91-7303429071 | linkedin.com/in/aman-yadavv/

PROFESSIONAL SUMMARY

Experienced and results-oriented Software Developer with a strong foundation in PHP, Codeigniter, Laravel, Angular and Wordpress. Seeking a challenging role where I can apply my skills in backend development, problem-solving, and project execution to drive innovative digital solutions and support business goals

TECHNICAL SKILLS

- **Programming Languages:** PHP, Python
- **Frameworks:** Laravel, Codeigniter, Angular, Django
- **CMS:** WordPress (Theme Customization, Elementor)
- **Database:** MySQL
- **Tools:** Git, Composer, Postman

WORK EXPERIENCE

Software Developer | Qorvatech Pvt. Ltd.

Aug 2024 – Present

- Built and enhanced a **Human Resource Management System (HRMS)** in Laravel with role-based authentication and authorization for **Super Admin, Admin, HR, and Employee** modules.
- Implemented **payment gateway integrations** including **Razorpay and PayPal** handling payment processing, order confirmation, and transaction management.
- Developed and maintained **E-Commerce applications** in Laravel, including product management, shopping cart, order processing, and checkout workflows.
- Built and maintained CRM using **CodeIgniter 3**, following **HMVC** architecture.
- Improved application performance by optimizing Eloquent ORM queries, database indexing, relationships, eager loading, and query execution.
- Developed custom modules such as **SEO Daily Reporting**, user management, dashboards, and administrative features in CodeIgniter.

- Customized and maintained **WordPress websites**, including custom themes and Elementor-based pages, and website migrations.
- Designed and optimized **RESTful APIs**, business logic, and reusable Laravel Services for scalable application architecture
- Fixed production issues, optimized existing codebases, and deployed applications on Linux hosting environments.
- Used **Git** for version control and participated in bug fixing, feature enhancements, and deployment activities.

PROJECTS

Ravair Solar – eCommerce Platform

Link: <https://ravairsolar.com/>

Tech Stack: Laravel, PHP, MySQL, Bootstrap, jQuery, AJAX

- Developed and maintained a complete eCommerce platform for industrial air purification and solar products.
- Implemented product catalog, shopping cart, secure checkout, and order management.
- Integrated PayPal payment gateway
- Implemented email notifications, order confirmation, and transaction tracking.
- Developed a user dashboard enabling customers to track order status, payment history, and order details in real time.
- Optimized product filtering, pricing logic, and database queries for faster performance.

Helixara – Healthcare eCommerce Platform

Link: <https://helixara.co.uk/>

Tech Stack: Laravel, PHP, MySQL, Bootstrap, jQuery, AJAX

- Developed healthcare-focused eCommerce modules including product listing, cart, checkout, and order management.
- Integrated Fena Payment Gateway with complete payment flow and order confirmation.

- Implemented email notifications and payment status tracking.

CRM System (Company Project)

Tech Stack: Codeigniter 3 (HMVC), PHP, MySQL, Bootstrap, jQuery, AJAX

- Developed and maintained a modular CRM system using CodeIgniter 3 (HMVC Architecture), ensuring scalable and maintainable code.
- Designed and implemented SEO Daily Reporting modules to track project progress, performance metrics, and generate reports.
- Built a complete Invoice Management module with invoice generation, payment tracking, and clients record management.
- Fixed production issues and improved system stability.
